SAN FRANCISCO, March 5.—The permanent organization of the western chief of police was effected today at the morning session of the first convention, which was yesterday begun in this city.

Chief Whitman called the meeting to order promptly at 10 o'clock. Upon the call of the chair, Mr. Reynolds presented the report of the Committee on Organization, which was at once received.

The organization will be known as the Association of Chiefs of Police of the Pacific Slope, and will be made up of all the chief of police of the states on the Pacific.

All chiefs of police will be eligible for membership upon the presentation of the proper credentials.

On the motion of Chief Hodgkins of Oakland, Chief Whitman said that this city had nominated and elected president of the new organization. Chief Elton of Los Angeles was elected vice-president, and Chief Hodgkins, secretary and treasurer. A board of five directors, consisting of K. H. Sullivan, Morris, and Reynolds, and Rawle was appointed to serve one year.

The matter of the time and place for the next meeting of the association was then taken up, and, after a long discussion, Portland, Oregon, was finally selected as the place for the third Tuesday of the next September as the time for the meeting.

The remainder of the morning was devoted to a discussion of the social evil, which was brought to the attention of the convention by Chief Whitman, and the committee on social problems, it is believed, for it was generally recognized that it would not be safe to support the evil, and it should, however, be under strict police regulation and surveillance at all times.

BERTILLON SYSTEM.

THE NEW ASSOCIATED PRESS—P.M.

SAN FRANCISCO, March 5.—At the afternoon session, the Bertillon system, adopted by the National Identification Bureau, was discussed at length.

Chief Elton of Los Angeles stated that the system was extensively used in his department, and he said he had no objection to its use, provided it was not used for identifying criminals. After the discussion, Chief Sullivan of Sacramento moved that the members of the association immediately propose to the boards of supervisors or their trustees of the sections over which they have control, to install the Bertillon system.

A motion was passed, expressing regret that Elton of San Jose did not come to the meeting. The motion concluded on motion of the convention.

OUTLAWS ARRESTED.

MEMBERS OF SMITH GANG.

CLIFTON (Ariz.) March 5.—(Exclusive Dispatch.) Yesterday Deputy Sheriff John Parks, assisted by several other deputies and four rangers, arrested W. T. Nell, J. Cook and Joe Roberts, on Blue River, about forty miles from Clifton.

The three are supposed to belong to the Chinese gang of outlaws, and are also wanted in Eastern New Mexico for some very grave crimes, committed there a few months since.

The outlaws were heavily armed, but the plan of capture had been so well arranged that they offered no resistance.

March 5.—James Parks, a miner well known all over Arizona, and at the time employed by the Comstock Gold Company, was shot and killed at 10:30 last night, and his wife, a young woman, who was staying with him, was severely wounded. Mrs. Parks had been divorced from a previous husband. Their marriage was a series of quarrels owing to the improvidence of the husband, and the fact that Parks was a gambler, supporting the woman with money, though he loved her passionately. Both died well in the community, and there was a breath of scandal attaching to them.

(CONTINUED FROM FIRST PAGE)

Committee on the Philippines, in the course of his testimony before that committee today, he said the Filipino forces would have been but of little assistance if it had been necessary to assist Manila from the Spaniards by assault.

"The capture of that city was by arrangement, and between General MacArthur, Admiral Dewey, and the Spanish commander, was it not?" Mr. Patterson asked.

"I know nothing about that," responded Gen. Hughes.

"As a military man, what is your belief, founded upon your conversation with your superiors?" Mr. Patterson asked.

Senator Beveridge insisted that the question was not proper, but Mr. Patterson said he was asked.

"I would ask," said the witness, "if it would not be much better to excuse me from answering in view of the fact that the committee is in Washington, and you can get the information from him first hand."

"I prefer to answer you, and you can answer as you see fit," said Mr. Patterson.

"I don't think I ought to answer that question," replied Gen. Hughes.

Continuing his testimony, in reply to further questions, the witness said the Filipinos had aided the Americans materially by their kind of of course, and the accommodations they had supplied, but that the Filipinos never have been considered part of the fighting force in the operations against the Spanish force.

"The principal consideration in connection with them was to keep them out of the way," he said.

FIFTY-SEVENTH CONGRESS.

REGULAR SESSION.

(BY THE NEW ASSOCIATED PRESS-A.M.)

WASHINGTON, March 5.—(Exclusive Dispatch) [Secretary of the Treasury Shaw today sent

to Congress a letter asking for a larger appropriation for providing temporary quarters for the Los Angeles postoffice.

Representative Cannon of Illinois said tonight he called at the White House this morning on a personal matter, and that he had a long talk with the President.

While there he (Cannon) brought up the subject of Cuban reciprocity, and stated to the President that there was a desire on the part of the United States to what should be done in the matter of a commercial agreement with Cuba. He told the President that the two countries had no particular agreement, and the two parties entirely agreed among themselves as to what course should be pursued, some favoring no action, and others favoring the negotiation of a formal agreement.

He also told the President that there would be another conference tomorrow night which would be the third the Republicans have held, and that it has been indicated that the members should be taken for a full conference, each member having full opportunity to express his views, and that night probably would be several days before the conference was ready to take definite action.

Speaker Henderson, Cannon said, was present during the interview, and shared his views.

"Our going to the White House," said Cannon, "is not in any way, have for the object the urging of the President to delay sending a message to Congress on the subject."

Representative Cannon further stated that the Republicans listened attentively and acquiesced in the wisdom of full consultation.

"In other words," he said, "while we don't hold conference in his office, by the time we get to the White House, there was a pleasant one, and the President, by his manner, in no way suggested or combatated the course of the Republicans in sending the House pursuing the course they were pursuing in the premises."

The Treasury Department announces that it does not intend to rent an additional building in Los Angeles, but to take and fit up additional rooms in the building now being used for postoffice quarters.

Gov. Taft will then leave Washington to go about three weeks.

GEN. HUGHES WARMS UP.

MARION (Ala.) March 5.—An
organization of negroes, marching
toward this town with the intent of
attacking the County Jail, and releas-
ing two negro murderers, one of whom
Luke Sanders, under sentence to be
hanged tomorrow.

Citizen's soldiery is being orga-
nized, and a mob is to be formed
under the command of Duke of
Groves. Pickets have been thrown out
on every road leading to the town, and
if a mob appears, a serious conflict
is feared. Early in the night leading
citizens held a conference, and it was de-
cided not to let the Government aid
as they believed it to be the duty
of the people to enforce law and order.

When the reports were first received
that negroes were marching toward the
jail, citizens held a conference, and it was de-
cided not to let the Government aid
as they believed it to be the duty
of the people to enforce law and order.

Local Sentries and John, the
prisoners, are charged with the
murder of Road Overseer Melvin seven
months ago. Luke Sanders was sent-
enced to be hanged in the spring. The
Court refused a new hearing, but re-
commended commutation of sentence.

The latter was sent to the State Par-
ole Commission, and the Governor refused
to interfere. When news of this action
reached the negroes, they organized
and demanded their release.

Perry county is one of the back belt
counties, and a large majority of the
population is composed of negroes.

Proposed to attack the County Jail
and release prisoners.

BUSINESS.

Clearances sent by the Los Angeles banks yesterday were \$294,400.35. For the corresponding day a year ago the amount was \$264,495.57. In the total yesterday were checks closing up one or two moderately large real estate deals. The balance was for regular business of the day.

Bullish tendencies in wheat and dullness in corn marked the situation at Chicago. There were some notable gains by stocks on the New York Exchange.

STAND AND DELIVER.

A strike of street railway employees is in progress at Norfolk, Va. It is not unlike street railway and other strikes in its general features. Cars have been derailed and stoned, tracks have been torn up, and rioting has been rampant since the inauguration of the strike. The militia has been called out, several persons have been injured, and the community of Norfolk is in a ferment of excitement. It seems to be a typical strike, in most respects.

As to the merits of the demands made by the strikers, The Times is uninformed. These demands may be just, or otherwise. As a broad, general proposition, demands require to be backed up by mob violence and the reverse of just. In the case of the Norfolk strikers, the dispatches leave us in the dark as to the exact nature of the cause bell. But the fact is made clear, aside from all theorizing, that street railway traffic in the city has been practically stopped. A few cars have been moved, under heavy military guard, but no passengers are carried. This stoppage of traffic is due, primarily to interference with the operation of the roads by mobs composed of strikers and their sympathizers. This much is as clear as the atmosphere of Southern California after a rainstorm. The street railway companies are not only willing, but anxious to resume their lines according to charter requirements. They are restrained from so doing by the reverse of violence, which the civil authorities have failed to suppress. These are the facts of the matter.

According to the dispatches, one of the "strike leaders" is also a member of the City Council of Norfolk. His name, to be specific, is S. H. Kelly. The seal of Kelly as a strike leader, it seems, is considerably greater than his seal as a member of the municipal Council. He is evidently a strike leader first, a Councilman next, and an American citizen last of all—if, indeed, he is an American citizen, which may well be doubted. At any rate, Kelly has introduced in the Council (evidently in his capacity as a strike leader) a resolution providing for the revocation of the street railway franchise, because of the failure of the railway company to run cars over its lines.

Here is a striking exemplification of the justice and moderation of "organized labor." It is, in effect and degree, the same sort of moderation and justice that the highwayman is wont to show to his victim. If the scheme of Councilman Kelly of Norfolk can be carried out, it will be equivalent to the taking of the street railway company's property by force. To all intents and purposes, it will be a case of highway robbery.

The street railway company of Norfolk is bound by the provisions of its charter to operate cars over its lines at stated intervals. In the prosecution of this legitimate business it is entitled to the protection of the laws as are all individuals and corporations in the prosecution of legitimate business. It is the imperative duty of the civil authorities to furnish such protection when it is needed, and to the extent that it may be needed. If

FOR BEAUMONT**

**LOS ANGELES ENTERPRISE
• TEXAS OIL TOWN.**

Allen C. Bush of This City Has
Interest in Valuable Trolley
Lines—Beaumont Fields
Connected With Port Arthur.

Los Angeles enterprise
only helping to develop
the great oil fields of Texas
a Los Angeles man is aiming
to give the town of Beaumont
connection with the outside
world. The Angelino who is
making the future future is C.
Bush, formerly of Illinois,
California by adoption.

Mr. Bush was formerly Agric.
Commissioner of Illinois and was
at one time considerable man
for he was a member of the
through the failure of a large
manufacturing concern with which
connected, and when he came
away about ten years ago
a comparatively unknown man.

After trying in vain to get
a place in some lucrative business
Mr. Bush joined the rush of
men to the oil fields of Texas
and there he has since been
engaged on the project of
the new oil fields there. The
was enough to draw a good claim
in the oil field, a good price,
as well as to Beaumont, a
big boom. He arrived on the
a little too late to get in on the
oil lands, but with a Kansas
man, he set about to win
in another way.

Noting the rapid growth of
men and Port Arthur, the
port to the oil fields, Mr. Bush
partner undertook to procure a
claim for an electric railroad to
the two cities. There were other
interested in a similar
principle, and it took a good
hustling to gain the coveted prize.

Rush and his associates were soon
in the oil fields and were soon
engaged on the project of
the new oil fields there. The
was enough to draw a good claim
in the oil field, a good price,
as well as to Beaumont, a
big boom. He arrived on the
a little too late to get in on the
oil lands, but with a Kansas
man, he set about to win
in another way.

Mr. Bush is at present visiting
family at Pico Heights, but
shortly to return to Beaumont,
to claim Los Angeles as his
permanent home.

A number of Los Angeles
men are doing well at Beaumont,
and the city is reported to have
cleaned up by timely investments
in oil lands.

The distance from Port Arthur
to Beaumont is eighteen miles, and
country intervening is rapidly
up. It is expected that the electric
will be in operation in a few
years, as travel it promises to be
Port Arthur is becoming an
attractive center on account of
proximity to the oil fields, and
harbor facilities. A good deal
new that is to be done to
the port to Port Arthur is to be
done at the former place. The
of Port Arthur is reported to be
population of about 4000 at the
time 18,000 is claimed for.
